| Your DNA will be compared to the remains in the 1921 Tulsa Identification Project | ✓ | ✓ | ✓ | ✓ | ✓ |
| Another valid option is to decide you do not feel comfortable with DNA testing at this time. If so, we are still interested in hearing about your family's ties to the Tulsa Race Massacre. You can share stories, images & more via our online form . | | | | | |

* For more information regarding Law Enforcement usage of authorized public genetic genealogy (DNA) databases, please refer to the "[Law Enforcement & Genetic Genealogy Databases](#)" document.

¹ If you tested at another Direct-to-Consumer (DTC) company such as 23 and Me or My Heritage, the same paths are available.

² See FTDNA [Terms of Service](#) & [Privacy Statement](#).

³ If you are a descendant of a Tulsa Race Massacre victim, please contact us at info@IntermountainForensics.com about qualifying for a free Ancestry DNA test.

⁴ See Ancestry [Terms & Conditions](#) & [Privacy Statement](#).

⁵ Relative matching may sometimes reveal unexpected family relationships. For more information read the "[Genetic Genealogy Standards](#)" document.

⁶ View instructional video regarding your upload to GEDmatch: www.tulsa1921dna.org

⁷ See GEDmatch [Terms of Service](#) & [Privacy Policy](#). An additional option with GEDmatch allows a user to select the Research Kit option and then send their kit number to Intermountain Forensics after upload.

⁸ Users selecting "Opt-Out" at the time of upload to GEDmatch will be automatically compared to the remains from Oaklawn Cemetery AND unidentified human remains found elsewhere by different agencies.

⁹ Users selecting "Opt-In" at the time of upload to GEDmatch are additionally giving their authorization to be compared to crime scene DNA.

¹⁰ The DNA raw data files sent to info@IntermountainForensics.com will be treated as confidential correspondence and used only to compare directly, one by one, against human remains from the Tulsa 1921 Graves Investigation commissioned by the City of Tulsa. Intermountain Forensics does not have a database to hold this information, nor will they willingly provide any consumer raw data files to the City of Tulsa or any other agency.
